

CLAIM AMENDMENT

Please cancel claims 1-21 without prejudice.

Kindly, enter claim 22 as follows:

22. A jamb protection device, comprising:
- a. an adjustably resilient body;
 - b. a first compression surface responsive to said adjustably resilient body; and
 - b. a second compression surface responsive to said adjustably resilient body,
whereby flexure of said adjustably resilient body allows said first compression surface to engage a first wall surface and said second compression surface to engage said second wall surface.
